MUHAMMAD DILSHAD

REACT.JS DEVELOPER

Summary

I am React.js developer proficient in HTML, CSS, tailwind CSS, bootstrap, JavaScript and React.js. Skilled in developing user-friendly interfaces and responsive web applications. I have problem-solving abilities and a keen eye for detail. Seeking a position where I can utilize my skills and contribute to innovative projects.

WORK EXPERIENCE

codesprint
React.js Developer   On-site/ Full-time

I worked as a React.js developer at Codesprint agency from 16 January 2024 to April 2024. During my time there, I successfully completed multiple projects using React.js and exceeded all performance metrics set by the agency.

Some of my key achievements include:

- Developed and launched a custom e-commerce website for a client, increasing their online sales by 30% within the first month of launch.
- Optimized the loading time of a web application by 40% by implementing best practices in React.js coding.
- Collaborated with the design team to create visually appealing and user-friendly interfaces for various web applications.
- Implemented responsive design techniques to ensure seamless user experience across different devices.

Overall, my time at Codesprint agency allowed me to hone my skills in React.js development and deliver high-quality projects that met and exceeded client expectations.
